WORK EXPERIENCE

Siemens | *Project & Bid Management Intern*

May 2026 - Present

- Conducted weekly cross-functional follow-ups and BOM-to-PO analysis, verifying purchase orders in SAP to maintain project production timelines.
- Translated and interpreted German technical documents to build 6 newly structured, component-specific task lists, improving production readiness workflows.
- Built a Power Automate flow to generate Planner tasks from Excel data and a SharePoint dashboard embedded in Teams, streamlining task tracking across projects.
- Built an Excel macro-driven tariff calculator applying HTS prefixes/codes to automate cost calculations within bid costing sheets, supporting the Bid Management team.

Atlanta Federal Reserve | *Student FinTech Consultant*

January 2026 - April 2026

- Engineered a functional prototype demonstrating real-world AI purchasing capabilities by co-writing code with AI tools to build a custom API across multiple integrated apps.
- Investigated overall market sentiment regarding AI-driven financial transactions, navigating NDA restrictions and professional stakeholder needs.
- Bridged the gap between technical software development and business analytics within a team-based setting to deliver a comprehensive, human-centered tech solution.

Alveterm INC. | *Operations & Systems Engineer*

May 2019 - Present

- Managed 200+ SKUs with QuickBooks and shipping software, maintaining inventory and improving efficiency by ~50%.
- Communicated with 5 core clients monthly in German and English, developing customer-focused communication.
- Co-verified system compatibility for 20+ product installations, applying troubleshooting and technical validation skills.

University of Georgia Housing | *Resident Assistant*

July 2024 - December 2025

- Provided support and guidance to 36 residents, fostering a safe and inclusive community.
- Organized and led 12 educational and social programs to enhance student engagement and well-being, resulting in improved awareness of campus resources among students.
- Enforced university policies, mediated conflicts, and responded to emergencies to ensure a positive living environment.

PROJECTS

Project Car, 2015 BMW 320i

- Installed performance upgrades, requiring a custom tune and fuel mapping.
- Full maintenance and cosmetic work; coolant lines, headlight replacement, body work, etc.

INVOLVEMENT EXPERIENCE

NEST Run Club | *Cofounder*

June 2024 - Present

- Rapidly grew to 2250+ followers across all platforms, leading weekly community-centered fitness initiatives
- Negotiated with 30+ local brands and clubs to secure \$6500+ in sponsorships, enhancing the club's resources and visibility while strengthening relationships with key community partners through cold-calling and online meetings.
- Created social media content in short-form videos, focusing on member engagement and brand recognition.

Terry Fintech Society | *Director of Cryptocurrency*

January 2026 - Present

- Collaborated within student teams to analyze complex financial case studies, applying critical thinking, business analytics, and market research.
- Hosted recurring member meetings teaching cryptocurrency fundamentals and led case study discussions on real-world crypto and blockchain applications.
